itc · DIGITAL CONFERENCE SYSTEMS

TF-A03305

Conference Microphone

The itc TF-A03305 is a conference Microphone from itc's Digital Conference Systems range, built for council chambers, boardrooms, government and university meeting halls, courts and conference centres.

Key figures: frequency response 80Hz ~ 16kHz; sensitivity - 40 ±1dB (0dB=1V/Pa,at 1KHz). Highlights include supports sign-in function, supports voting function and supports web page firmware upgrade function.

Key features

- Supports sign-in function — Supports sign-in function, and can also prohibit unit sign-in, control unit sign-in and other functions through PC software.
- Support conference logistics service functions. The… — Support conference logistics service functions. The microphone unit can send requests for tea, paper and pen, manual service, etc. to the conference host.
- Supports voting function — Supports voting function, with multiple voting modes to choose from, and the options can be customized and sent to the unit for display.
- Supports web page firmware upgrade function
- Support IP address sniffing function — Support IP address sniffing function, through PC tools can find unknown unit's ID number, IP address, MAC address and other parameters.

Technical specifications

Frequency response	80Hz ~ 16kHz
Microphone input impedance	1KΩ
Sensitivity	- 40 ±1dB (0dB=1V/Pa,at 1KHz)
Max SPL	120dB (THD < 3%)
SNR	>80dB(A)
Crosstalk	>70dB
THD	<0.3%
Dynamic Range	>80dB
Maximum power consumption	3.0W
Microphone Type	Electret Condenser Microphone
Mic rod length	240mm
Microphone directivity	Heart
Power supply	Conference host power supply
Color	Oxidized fine sand black
Dimensions (LxWxH)	154.9×99×60.5mm (excluding microphone rod length)
Weight	1.01kg
Installation	Desktop
