itc · STAGE MONITORS

TK-T12

Professional Speaker

The itc TK-T12 is a professional Speaker from itc's Stage Monitors range, built for speech and music reinforcement in conference rooms, banquet halls, theatres, KTV and multipurpose venues.

Key figures: rated power 400W; peak power 1600W; frequency response 50Hz-20kHz. Highlights include 12-inch coaxial speaker, compact woofer inverted design, optimized built-in frequency divider and multipurpose structure.

Key features

- 12-inch coaxial speaker — Include a 12-inch woofer and a 75mm tweeter With complete overlapping diffusion of low/high frequency Suitable for semi-reverberation environments
- Compact woofer inverted design — Perfect frequency response, phase response and excellent monitoring capability
- Optimized built-in frequency divider — With abundant sound pressure and comfortable tone
- Multipurpose structure — Support horizontal and vertical placement Used as full-range speaker or stage monitoring speaker
- Durable cabinet with elegant appearance — High-quality birch housing with CNC processing Wear-resisting environment-friendly waterborne paint spray

Technical specifications

Impedance	8Ω
Frequency response	50Hz-20kHz
Rated power	400W
Peak power	1600W
Sensitivity	99dB/W/m
Max SPL (rated/peak)	125dB/131dB
Coverage angle	(H)90°(V)90°
Woofer	12″ coaxial speaker ×1
Dimension	485×457×310mm (H×W×D)
Weight	19.85kg
