itc · WIRELESS CONFERENCE SYSTEMS

TS-0323B

T-type Extension Box

The itc TS-0323B is a T-type Extension Box from itc's Wireless Conference Systems range, built for council chambers, boardrooms, government and university meeting halls, courts and conference centres.

Key figures: total power consumption 2W; network port standard IEEE802.3, IEEE802.3u, IEEE802.3x; power supply Power supply, network port power supply. Highlights include support network port extension function, support power supply function and support 100M network transmission.

Key features

- Support network port extension function
- Support power supply function
- Support 100M network transmission — Support 100M network transmission, hand in hand cascade, and communication instructions.
- Connected to the power adapter to realize long-distance... — Connected to the power adapter to realize long-distance power supply.
- Each port supports IEEE802.3 — Each port supports IEEE802.3, IEEE802.3u, IEEE802.3x standards, and has strong anti-interference ability.

Technical specifications

Total power consumption	2W
Network port standard	IEEE802.3, IEEE802.3u, IEEE802.3x
Power supply	Power supply, network port power supply
Color	Black
Dimension	60×52.4×27mm (L×W×H)
Installation mod e	Desktop
Weight	About 0.2kg
