itc · DIGITAL CONFERENCE SYSTEMS

TS-6F

Socket

The itc TS-6F is a socket from itc's Digital Conference Systems range, built for council chambers, boardrooms, government and university meeting halls, courts and conference centres.

Key figures: total power consumption 1.5W; network port standard IEEE802.3, IEEE802.3u, IEEE802.3x; power supply Six- pin port power supply. Highlights include support network interface extension function, one in and three out and adopt 100M/10M adaptive network transmission.

Key features

- Support network interface extension function
- One in and three out — One in and three out, connect the unit and the controller, realize the network function.
- Adopt 100M/10M adaptive network transmission — Adopt 100M/10M adaptive network transmission, realize hand-in-hand cascade.
- Each six-pin aviation connector supports IEEE802.3 — Each six-pin aviation connector supports IEEE802.3, IEEE802.3u, IEEE802.3x standards, and has strong anti-interference ability.
- The bottom box is waterproof

Technical specifications

Total power consumption	1.5W
Network port standard	IEEE802.3, IEEE802.3u, IEEE802.3x
Power supply	Six- pin port power supply
Color	Gold
Bottom box size	100×100×45mm (L×W×H)
Panel size	124×120×7.6mm (L×W×H)
Weight	About 0.6kg
Installation method	Floor embedded
Working temperature	-10℃~+45℃
Working humidity	20% □ 80% relative humidity, no condensation
