- The equipment adopts an all-aluminum structure — The equipment adopts an all-aluminum structure, high-quality aluminum materials plus CNC precision carving processing. The display frame and body are made of aluminum alloy
- The surface treatment of the equipment is anodized — The surface treatment of the equipment is anodized, with bright color. The high-definition screen is a well-known domestic brand, using A-standard display screen, high resolution,
- Supports arbitrary switching between paperless conference… — Supports arbitrary switching between paperless conference mode and Windows computer mode; has 2 USB 3.0 interfaces, and can browse or upload files by connecting
- Supports signal management permissions — Supports signal management permissions, can control the same-screen broadcast of any participant, and supports group same-screen broadcast.

Technical specifications

Operating system	Windows 10 GenuineActivated
Main screen	Touch Support
CPU	i56300U
Cores/Threads	Dual core and four threads
Frequency	2. 4 GHz
Memory	DDR44G
Harddisk	Solid state 128G
Operating voltage	12V
Elevation a ngle	0-45°
Environmental conditions	-20℃ □ 50℃ Humidity ≤ 70%
Main screen size	15.6 inches
Main screen ratio	16 :9
Display dimensions	344.16(W) × 193.59(H)mm
Main screen resolution	1920 × 1080 P
Backlight type	10S4P WLED, 15K hours, including LED driver
Main screen contrast	800 :1
